

Garbage in Garbage out Should Not Apply

Breakthrough for Image File Size and Quality!

SAFER Create™ lets you produce the smallest PDF files possible today, while delivering intelligent and searchable characteristics with excellent image quality. SAFER Create™ guarantees you results other products cannot even promise.

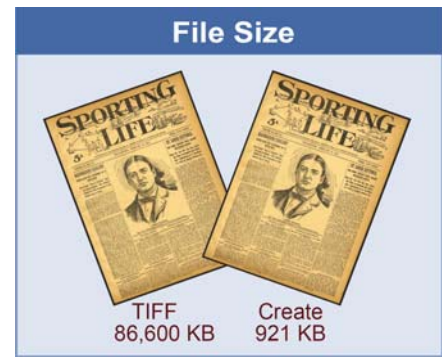

- Reduce file size - down to 1%.
- Enhance image quality - improved contrast.
- Smooth rough edges - better text presentation.

Store Your Image and Index Data in One File!

With a user-friendly interface, SAFER Create™ gives you unparalleled capabilities to optimize your text files and images. Index field data embedded in the multi-page PDF files can readily be imported into most EDM packages. SAFER Create™ supports multiple software products with compliant full text and image search and is capable of production batch processing.

- Embedded metadata added in the XML layer.
- Search options expanded with full text OCR search.
- Production grade batch processing capabilities.

Your Documents the Way You Want Them!

- Create searchable text document collections.
- Digitally optimize and preserve document archives.
- Improve image contrast and clarity.
- Reduce file size of document collections while maintaining quality in text and/or photos.
- Smooth rough edges of text to preserve quality.
- Create intelligent document libraries with embedded metadata fields from external sources.
- Optimize and upgrade existing PDF documents.
- Create high quality image documents with small file sizes for mobile Internet.
